HORRIBLE MURDER IN WOODFORD.

We find the following in the Lexington Observer and Reporter of Saturday last:

We learn that a dreadful homicide was perpetrated in the county of Woodford, near Mortonville, on Saturday, the 25th ult., upon the person of George Epperson, a respectable farmer, and a man generally respected by the good citizens of the county. It is stated that he left his house on the day mentioned, about 11 o'clock, to go to a piece of land which he had rented and was cultivating, about a mile and a half from his own farm, and was not seen again until he was found the next day about 11 o'clock, dead, in a field of Capt. Sellers not far from his residence. He had been shot by a rifle ball, which entered his back just below the shoulder blade, and passed through his heart.

We understand that suspicion fell upon a man by the name of William Wilson, who had recently resided in a house upon Epperson's farm, and between whom and Epperson there had been a difficulty; Epperson having sued out a warrant to dispossess Wilson of his house. We also understand that the circumstances tending to fasten conviction upon Wilson (threats having been proven against him) were such as to induce the investigating court to commit him for further trial for murder, at the next term of the Woodford circuit court.

The circumstances of this murder are of the most revolting character, and it is to be hoped that the respectable county of Woodford will not permit such a murder to stain her escutcheon, without inflicting the extreme punishment of the law upon the guilty culprit.

THE HOG MARKET.—We clip the following from the Louisville Courier of Wednesday:

The market continues quiet, with no sales of hogs, but we learn that within a few days considerable inquiry has been made in Shelby county, with a few sales at \$3.30 gross, holders generally asking \$3.50. The arrivals by railroad continue light, and are only from Fayette county.

We learn that some 18,000 head of hogs, which were purchased early in the season at \$3.75 gross, at Crab Orchard, Lincoln county, and places adjacent, have been stabled South, for the Southern consumers.

Prices of hogs are considered by many as far too high for purchasers to buy at with safety. The asking rate is \$4.50 net at present, and buyers are offering but \$4.00. Last season a speculator in this city invested about \$10,000 in hogs, at \$4.25 net, which were slaughtered and packed here, and the entire product sold in this, Louisville market, at a profit of a little upwards of \$1,600. This may not have been the result if he had either taken his pork to a bad market, or had sold at an unfavorable season, as the present is considered to be in regard to money matters, demands, &c.

The Washington correspondent of the New York Herald, of the 1st inst., thus writes:

This morning towards the President are unfounded. The morning after his arrival here, he instructed his secretary to the department, and during the day had a long interview with Mr. Fillmore. His friends declare that he has, for the present, abandoned his intention of leaving the Cabinet, a course which some months ago he was fearful the state of his health would compel him to adopt.

Mr. Crittenden's note to the French Government, about which so much has been said, was merely a polite iteration of the sups which the Government has adopted with reference to suppressing Cuban expeditions there being no necessity of a rebuff, as it was termed, the note of the French Government not being at all offensive in its tone.

It has been decided by the Postmaster General that a clerk by any officer of the Government entitled to the privilege, will carry a letter, &c. free by any United States mail steamer, to Europe or elsewhere. This reverses the former practice, which did not recognize frank to any foreign country.

CUBAN AFFAIRS.—A telegraphic dispatch from Washington, Nov. 7, says:

It is understood by letters received in this city from Havana, that the dungeon in which Mr. Thrasher is confined, is a wet hole in which no man can survive for a month. They also charge that Mr. Ower preferred charges to the Captain General against Mr. Thrasher asserting that he had propagated a libel against him with a view to procure his recall, being himself an applicant for the Consulate.

It is rumored that dispatches have been received at the Spanish Legation showing that Spain only requires her flag to be saluted in order to have her forget the insult to her flag at New Orleans, and this being done, the American prisoners are to be set free.

The President has received Judge Sharkey's acceptance of the Consulate at Havana.

Later from Northern Mexico.

NEW ORLEANS, NOV. 3.

The insurgents on the 30th ult. gained possession of the greater portion of Matamoros, but Gen. Alvalos still held out on the Plaza, with pieces of artillery. Alvalos was wounded. The Mexican loss was 150 killed and wounded. The insurgents only 20. Mr. Waddell, the American Consul, was wounded. Mr. Langstath, a merchant, was killed. The Custom House and all its contents, with several warehouses were destroyed.

It is supposed that Alvalos cannot hold out long, unless he receives reinforcements.

Dates from the City of Mexico have been received up to the 16th ult. The British Minister had an official interview with Arista. He demanded a final answer to Palmerston's despatches. It is reported that unless a satisfactory answer is given soon, that the British will blockade the Mexican ports.

Hon. W. C. Rives, minister to France, has been recalled.

DANVILLE, KY.
FRIDAY MORNING, NOV. 14, 1861.

For President in 1862,
MILLARD FILLMORE,
OF NEW YORK.

For Vice President,
JOHN J. CRITTENDEN,
OF KENTUCKY.

PORK STATISTICS.—We invite attention to the statement of the "Hog Crop" in our paper this morning. It is said to be an accurate estimate.

BOOTS AND SHOES.—We neglected last week to call attention to the advertisement of our worthy and enterprising young friends, THORPE & O'NEILL, Boot and Shoe makers. They are both accommodating dealers, and their work equals any we have ever examined, both as regards appearance and serviceability.

We call attention to the advertisement of LEVENSON & BROTH, merchants Tailors. They have now on hand a good supply of Ready-made Clothing, Cloths, Fancy Goods, &c.

The balloon ascension at Lexington came off in good style on Saturday last.

ELECTION OF U. S. SENATOR.—It is not yet certain at what time the Legislature will go into the election of U. S. Senator. The Senate has fixed upon Monday next as the day, but the House thus far has not been able to agree.

On Wednesday of last week, the members of the Kentucky Senate decided by lot on the length of their terms. The Senator from this district, Col. A. L. Caldwell, was among those who drew the long, or four year terms.

The great Circus of Spaulding & Rogers will be here on Monday next. Judging from the advertisement we suppose the performances will be varied and attractive.

It was the custom house at Matamoras, and not New Orleans, as announced upon the authority of a telegraphic dispatch in our last, that was destroyed by fire.

THE NEXT CONGRESS.—The first session of the thirty-second Congress commences at Washington two weeks from Monday next. The Locos, having a majority in the House, will of course elect their Speaker, though from present indications, we judge that the contest between some of their candidates will be very close. The names of Messrs. Boyd, of Kentucky, Bayly, of Virginia, Jones, of Tennessee, Disney, of Ohio, Burt, of South Carolina, Houston, of Alabama, and a host of others, for aught we know, have been presented, with the chances, it is said, in favor of the election of Boyd.

The message of the President, and the reports of the several departments will, it is understood, be unusual interest.

LATE ELECTIONS.—Sufficient returns have been received from the late election in New York to assure us that the Whigs have a majority in both branches of the Legislature, and have carried the canal board, and elected most of the other general officers.

In Mississippi, Foote is elected Governor over Jefferson Davis by a very handsome majority, though not as large as was hoped for. Davis professed to regard the union question as settled by the late election, and ran merely as a Democrat. In three Congressional districts, Unionists are elected. The 4th district has not yet been heard from.

In Massachusetts, Winthrop (Whig) is thought to be elected Governor, as the returns so far show an increased majority for him over that obtained by Gov. Briggs last year.

A telegraphic dispatch from Baltimore says of the late Maryland election: The Senate is Whig by 3 majority. The House of Delegates stands: 39 Democrats, 24 Whigs; 11 to hear from. The House will be Democratic by about 6 majority. Two Whig and two Democratic appeal judges are elected; four Whig and four Democratic circuit judges; and two Whig and two Democratic commissioners on public works. The vote of the State is small.

A telegraphic dispatch from Galena to the St. Louis Republic, says Farrell, Whig, is elected Governor of Wisconsin, beyond a doubt.

The Maysville Eagle, one of the best papers in the west, is hereafter to be published daily. Friend Stevenson, the editor, is an excellent writer, and as we have a vivid recollection of him as a clever school-mate, we wonder if to request an exchange with his daily would be asking too much. What say you "Tom?"

KOSUTH.—The reports concerning the recent conduct and probable intentions of this man are rather contradictory. A late account brought information that he had become offended in some way, and "in the pomp of his ire" had left the national vessel sent to convey him to this country, and had written a letter to the American Consul at Marseilles, abusing the Consul, and Capt Long, of the Mississippi in no very choice terms. One explanation of this strange proceeding says he became offended at Capt. Long because the latter gentleman did not wish him to do anything at Marseilles that would compromise the peace of our nation with France. Another is, that he left the steamer Mississippi, because the captain insisted on sailing direct for New York, without stopping at Southampton. All this rendered it extremely doubtful whether or not he would visit the United States at all, as it was said he made no secret of his intention to raise funds in England and France for the purpose of attacking Austria and revolutionizing Europe, but a dispatch from New York of the 10th, says it is understood that he sailed from England for America in the steamer of Saturday last.

The same dispatch further says: "The U. S. Steamer Mississippi from Gibraltar, arrived this morning, bringing the Hungarian refugees lately released with Kosuth, and Mrs. Capt. Burlingame, whose husband was lost overboard from the bark Alexina, from New York, on the 13th of October, near Gibraltar."

THE GREAT METHODIST CHURCH CASE DECIDED.—A despatch from New York, bearing date of the 11th inst., says: "In the U. S. District Court, this morning, the case of the Methodist Episcopal Church, North, vs. the Methodist Episcopal Church, South, was decided by Judges Nelson and Beas in favor of the Church South."

The sum involved in this suit was about \$400,000.

"SCATTER THE LIGHT!"—Our neighbor of the Harrodsburg Ploughboy appears rather offended at us, for remarking a week or two since that the sun still rose and set, notwithstanding the temporary suspension of his paper, and endeavors (by the general tenor of his article in reply to us) to convince the world that the sun did not such thing! Well, we suppose, just to pacify our neighbor, that we will be under the necessity of correcting our former statement, by acknowledging that when the Ploughboy press stops—so does the sun! Mighty man, that Gibbons, though we really had no idea of the Joshua-like power he possesses, and are still a little inclined to doubt his controlling influence over the "god of day." So mind you, neighbor, make this admission merely to keep on your "sun" side, and thus secure "those marbles."

A telegraphic dispatch from Washington, under date of the 10th inst., says it is rumored that negotiations are pending between the Secretary of State and the Spanish minister for the release of the American prisoners now in Spain.

The Indianapolis Journal states that Rev. J. A. McClung, who has recently been called to the First Presbyterian Church in that city, recently manumitted five slaves at Maysville, Ky., his late residence, and sent them to Indianapolis before the new constitution went into effect.

The Oregon Spectator, of September 30th, gives the details of a rich discovery of quartz gold between Shasta and Scott's rivers. The miners were crowding there in great numbers. The yield is said to be greater than that of the richest quartz mines of California.

The report that the Harrodsburg Ploughboy is printed on a "cider press" is deemed premature. Should our "wheelbarrow express" bring us a reliable confirmation of the rumor, we will issue an extra for the satisfaction of our readers.

A NEW SOCIETY.—Steps are being taken in Cincinnati to form a society for the suppression of Gambling. Many of the most prominent citizens are at the head of the movement, and it is believed much good will be effected. Every member will be required to obligate himself, by a solemn pledge, to use all the means in his power to root out the evil, and bring its propagators to exposure and punishment.

Cincinnati to Pittsburgh in a Day.—By the 15th of December a Railway communication is expected to be opened from Cincinnati, by way of Cleveland, to Pittsburgh, by which passengers, leaving Cincinnati in the morning, may arrive at Pittsburgh on the evening of the same day.

Late advices from Europe bring the news that the Pope is lying dangerously ill. Rumors of his death had been current, but they are contradicted.

The Rutherford (Tenn.) Telegraph says that a man in that place, aged 23 years, who has been deaf and dumb ever since he was four years old, has, under a severe attack of typhoid fever, recovered the use of his faculties, and can now speak and hear.

The correspondent of the New York Tribune, writing from San Francisco, California, says that the Chinese are destined to exert an important influence in that country. For the last six months they have supplied a larger number of emigrants than any other country. When they arrive they mostly equip themselves for mining, and set out in search of gold. They seldom leave the country, but appear to come with the intention of locating themselves permanently.

A Washington despatch states that Chevalier Hulsemann, the Austrian Minister, had an interview with Mr. Webster, at the Department, on Saturday morning, and the writer has no doubt that the rumor is true that he is instructed to ask his passports as soon as Kosuth arrives.

A block of stones from the Alps, sent by the government of Switzerland, for the Washington Monument, is said to be on its way to this country.

Barnum assures the public that a test will soon be applied to the Fire Annihilator, which he is confident will work well. If not, no money will be demanded in any case where they are sold.

THE SOUTH AGAINST SECESSION.—Within a short period, four Southern States have voted directly upon the question of secession from the Union, viz: Mississippi, Alabama, Georgia, and South Carolina. The total vote in these States in favor of remaining in the Union was 147,200; for seceding, 109,100—majority in favor of the Union, 38,500. Mississippi gave 7,800 Union majority; Alabama, 6,200; Georgia, 10,000; South Carolina, 7,500.

The statement that Hulsemann, the Austrian Minister, would demand his passports in the event of a national reception being given to Kosuth, is contradicted in the Republic of the 4th. The Republic also contradicts the report that Mr. Rives, the Minister to France, has been recalled, but several Washington letter-writers still insist that such is the fact.

A letter is published in the Detroit Advertiser, of the 4th inst., from a correspondent whose name is authorized to be given up if demanded, stating that McClelland, the Locofoco candidate for Governor of Michigan, has promised to pardon the railroad conspirators lately sentenced to the Penitentiary, if he is elected, and that the friends of the convicts are supporting him with such expectations.

SPAIN.—A correspondent of the New York Courier and Enquirer, writing from Washington, states that the Spanish Government exhibits additional anxiety in its despatches by the last steamer to obtain satisfaction for the injuries inflicted upon its consul at New Orleans. It is thought that when this satisfaction is given, the American prisoners now in Spain will be released.

Covington and Lexington Railroad.—The Cincinnati Commercial, of Saturday, says: "The expenses on the Covington and Lexington Railroad average per day one thousand dollars. In the last sixty days, the expenses have amounted to near sixty thousand dollars. The work goes bravely on."

OPENING A MOUND.—The workmen on the Baltimore and Ohio Railroad opened an Indian mound recently. It was about 70 feet in diameter and 11 feet high. Nearly on a level with the surrounding earth were found an altar of stone, evincing the action of the fire, and west of north of the altar, the head and body of an Indian extending west of north, at a slight declivity from the head to the feet. This body was covered to the depth of a foot or more with ashes in which the salt was still manifest to the taste. The body was remarkably perfect, and was mostly preserved. Around it were twelve others with their heads centering towards it, and feet projecting. No articles of art were found except a polished stone tube, about 12 inches in length.

SICKNESS IN THE WEST.—The editor of the St. Louis Republic, on personal knowledge, says there has not, within the knowledge of the settlers on the upper Missouri, been such a general prevalence of fever and ague, as during the present fall. He crossed the Missouri river at old Fort Kearney into Iowa, and from thence down through Missouri to St. Joseph (and the country is populous) and scarcely found a house or family that was not afflicted with the disease, or typoid fever in some shape or form. Whole families, who have for years enjoyed uninterrupted health, were prostrated with the disease. The mortality, however, was not very great.

The London Standard of latest date, says: Mr. Hobbs, the great picker of locks, obtained a triumph on Saturday, by having his lock restored to him uninjured, after a fortnight's persevering attempts on the part of Galignani, with the report of the Committee affirming its impregnability.

Another Revolutionary Soldier Gone.—Died, at the house of John Haley, sr., in Rockcastle county, Ky., on the 27th ult., Mr. BARNABE HALEY, aged 95 years. He was one of the last surviving soldiers of the Revolution.

WHAT THE LOCOMOTIVE DOES.—The Galena Gazette, in summing up the advantages of Railroads, says, the iron horse works in any harness, and is equal to, and willing to do any labor. He carries the pioneer into the wilderness, or the elegant into town—helps build the settler's cabin, or the merchant's mansion—draws the farmer's produce or the trader's goods. His appearance in a State is the signal for an unusual waking up. Locations are made—barns are built—the prairie is broken up—the timber entered—the fields are ploughed—villages appear—farms are sown—orchards are seen, and the school-houses and churches thronged—the feverish pulse of the trip hammer—the ring of the anvil—the rumble of the flour mill—the rattle of the loom—the flowing of cattle—the bleating of sheep—the laughter of children—the ringing of bells, and all the sights and sounds of industry, of plenty and of peace, accord and chord with him and his train, his whistle and bell, as he goes thundering by. The creature who does so much, lives on wood and cold water.

MR. FILLMORE AND THE ABOLITIONISTS.—If anything were wanting to prove Mr. Fillmore's fidelity to duty, says the Washington Republic, it would be furnished by the unceasing hostility manifested towards him by the abolitionists, who never neglect an opportunity to abuse him as the most formidable adversary they have to encounter. Gerrit Smith, the notorious abolitionist, assails the President and his associates, because they are inflexible in their determination to enforce the Fugitive Slave Law, and on this ground pours upon them the whole stock of epithets and denunciations of which he is master.

General Wm. O. Butler, of this State, seems to be making some little headway for the nomination by his party for the Presidency. The N. Y. Herald contains a communication from one of the New England States upon the prospects of the various Locofoco aspirants, from which we cut the following:

In New Hampshire, the Democrats are said to be about to move in favor of the nomination of Gen. Butler, headed by Gen. Pierce, who himself served so gallantly in the Mexican war. The Democracy might make a much worse selection than Gen. Butler, in point of U. S. as well as of availability, and it is within the bounds of possibility, that he will be nominated.

CONSEL OWEN.—The following is the last public letter that has been received from this gentleman:

HAVANA, Oct. 20, 1861.
Editors Savannah Republic:
GENTLEMEN—I have no official information of my recall, but the fact is announced in the papers of New Orleans and New York. I must request that you will do me the favor to ask that the public shall not judge me till they shall hear me fully. I ask nothing from their mercy, but I have a right to justice.
Very respectfully, &c.,
A. F. OWEN.

MULTUM IN PARVO.
Hon. Henry Clay expects to leave home for Washington about the 15th. A bill abolishing imprisonment for debt, passed the Rhode Island Senate Thursday of last week. It is said that McCormick will receive more benefit from the notoriety given to his invention, than any other individual or invention. He has been offered for the European right \$50,000. The leading German papers in Pennsylvania have hoisted the name of Gen. Cass for the Presidency, avowing that he is their first choice.

Suicides in New York average one a day, according to an estimate recently made by the editor of the *Evans Union*.

R U A Q B X P-ditionist?—In 1846 the national debt of Russia was \$49,938,000; since then it has increased, and is now \$53,235,000. A convention of editors and proprietors of newspapers in western and north-western Virginia, is to assemble at Clarksburg, on the 12th inst. It is said that Forrest, the tragedian, will visit the West shortly, on a professional tour. The receipts at the office of the National Washington Monument, for the month of October, were \$2,719 66. Snow fell at Madison, Ind., on the night of the 4th inst.—the first of the season.—The Chicago Journal states that a beautiful deer, perfectly white, has been brought to that city.

THE PESTILENCE AT THE CANARY ISLANDS.—Late arrivals have brought further news of the terrible mortality at the Canary Islands. The American Consul and his whole family with a single exception have been cut off by the pestilence. We make the following extract from our exchanges:

Since the disease first broke out, one-fifth of the whole population of 15,000 has been swept off, and the fever is still raging, though somewhat abated. It is not thought to be cholera, for it is very contagious; but it resembles it, in the quickness with which death succeeds the attack. It is supposed to have been brought to the island in a small vessel from the coast of Africa.

The family of the American Consul Mr. Torres, together with himself are all dead, with the exception of one child. He was a very worthy man, and had several handsome and interesting daughters, who were great favorites with the officers of the American ships that touched there. Mr. Torres sent them all into the inter-

rior upon the first appearance of the pestilence, but hearing afterwards that some of them were sick, he started off to join them, and on his arrival found them all dead, survivors included, with the exception of the child here mentioned. In less than five hours after, he himself was a corpse.

The panic and distress on the island is inconceivable. No communication is allowed with it from the adjacent islands, except from Tenerife, whence a small vessel sails twice a week for letters, to a port that has as yet escaped the malady. Every precaution is taken, by smoking the letters that are sent with brimstone, and dipping them in vinegar, and by putting the vessel in quarantine as soon as she arrives, in order that the disease may not be communicated to that island.

IMMIGRATION.—The total arrivals of foreign immigrants at this port from the first of January, 1851, to the present date, have been as follows:

January,	14,700	June,	34,502
February,	8,170	July,	27,913
March,	16,055	August,	50,251
April,	27,779	September,	33,589
May,	33,955	October,	21,337
Total,			251,920

Of the number who have arrived here during October, 11,688 were Irish; 6,662 Germans; 2,932 English; 553 Scotch; 296 Swiss; 230 French; 60 Hollanders; 193 Welsh; 193 Belgians; 44 Swedes; 33 Italians; 54 West Indians; 23 Spaniards; 21 Norwegians; 11 Danes; 9 South Americans; 7 Canadians; 5 Nova Scotians; 2 East Indians; 2 Poles; 1 Mexican; and 1 Russian.—N. Y. Tribune.

PITTSBURGH, Nov. 10, M.
A contest occurred yesterday, between two crowds of Catholics and Protestants, for the possession of the body of a dead man, which not only dishonored the Sabbath, but is discreditable to our police.—George Hartline, the deceased was a Catholic. He died on Saturday, at the house of Rhey, a colored man, residing in the High Ward. Sunday, when the body of Hartline was conveyed to a hearse at the colored man's door, a group of Catholics seized it, and after resorting to blows, carried it off on their shoulders to a hearse they had in readiness in High street.

From the Louisville Daily Courier, Nov. 12
Statement of the Crop of Hogs of Ohio, Indiana, Tennessee, Kentucky, Mississippi, Iowa and Illinois, for the years 1849-'50 and 1850-'51.

Crop of Hogs in 1849-'50	1850-'51	Pounds.
2,216,240 hams, at 15 lbs. each,	48,251,800	
3,216,240 shoulders, 15 lbs.,	51,438,810	
25 lbs leaf lard to a hog, at 200 lbs to the hog, 152,612 bbls., or	40,202,900	
8 lbs lard to a hog, at 200 lbs to the hog, 64,306 bbls., or	12,861,900	
70 lbs side meat to a hog, at 200 lbs to the hog, 569,842 bbls., or	112,568,400	
25 lbs head and feet to a hog,	40,202,900	
10 lbs wasteage to a hog,	16,081,200	
	321,621,000	

Crop of Hogs in 1850-'51	1851-'52	Pounds.
2,229,216 hams, at 14 lbs each,	35,402,824	
2,229,216 shoulders, 15 lbs.,	37,938,240	
25 lbs leaf lard to a hog, at 200 lbs to the hog, 152,612 bbls., or	37,281,376	
8 lbs lard to a hog, at 200 lbs to the hog, 64,306 bbls., or	8,852,552	
64 lbs side meat to a hog, at 200 lbs to the hog, 401,674 bbls., or	80,334,912	
20 lbs head and feet,	25,292,160	
10 lbs wasteage,	11,381,472	
	227,629,110	

It is pretty generally conceded that the coming crop in the same States is not larger in numbers, but better in quality, than last year's. We will, however, for the sake of the calculation, put it in round numbers at 1,300,000, an average of 200 lbs, equal to the crop of 1850-'51, which was undoubtedly a good one, and by the same rule of calculation, find the result as follows:

Crop of Hogs in 1851-'52	1852-'53	Pounds.
2,200,000 hams, at 15 lbs each,	33,000,000	
2,200,000 shoulders, 15 lbs.,	41,000,000	
25 lbs leaf lard to a hog, at 200 lbs to the hog, 147,337 bbls., or	32,500,000	
8 lbs lard to a hog, at 200 lbs to the hog, 64,306 bbls., or	10,000,000	
70 lbs side meat to a hog, at 200 lbs to the hog, 455,000 bbls., or	91,000,000	
25 lbs head and feet,	32,500,000	
10 lbs wasteage,	13,000,000	
	267,000,000	

We have been unable to ascertain the exact state of old Pork in hand in the United States, but the last time we inquired, in the month of July last, there was a very large deficiency, as compared with the same period the year before, say 14,000 hogs, equivalent to the Side Meat of 400,000 hogs, and it is but fair to suppose that this deficiency has not been lessened. It would seem, then, that high rates have not checked consumption; and our readers can draw their own inferences as to the probability of prices this coming season being sustained or receding, as compared with last year. It is true, there is a continued stringency in our money market, and dealers in hogs, as well as in all other kinds of produce, must feel the effects of it.

THE TRIBUNE.

I CAN'T MAKE UP MY MIND.
It's really very shocking, but
I'm now just forty-five.
And here I am, not married yet.
A fact, as I'm sure!
And though there's lots of girls about,
And some to suit, I find,
I don't know how it is, I'm sure—
I can't make up my mind!

What shall I do?—or how decide?
How awkward is this doubt!
What is the man about?
I'll go out once—the question pop—
To little facts be blind;
I'm off—yet stay—I can't—I can't—I can't—
I can't make up my mind!

THE WOMAN'S RIGHTS CONVENTION at Worcester, Mass., adjourned sine die on Thursday night, Mrs. Pauline Wright, of Providence, was President. A lecture on Woman's Rights was delivered by Mrs. Redner, Abby Kelley Foster, Mrs. Brown, Mrs. Rose and others. Resolutions were unanimously adopted, advocating the right of suffrage for females, deprecating the idea that the one sex was born to rule over the other, &c. This was held to be demoralizing. Among the letters read was one from Mrs. M. M. M. of W. G. expressing her sympathy in the cause. Columns upon columns in some of the newspapers are occupied with the proceedings, which are more moderate than formerly. They point to the recognition of woman's rights of property, female medical education, &c., as the triumph of their movement so far. Many great truths were uttered in the debates, but others things impracticable and absurd.

The Boston correspondent of the New York Tribune, speaking of the review of the Tribune on Boston Common by President Fillmore, says: "As the President rode round in the course of the review, he was repeatedly cheered. Indeed the personal appearance of the President makes a decidedly favorable impression upon those who see him, for the first time. In the crowd at the review I suppose I heard twenty persons make remarks like these: 'What a fine looking man the President is!' 'How noble and manly in appearance!' 'What a fine expression of countenance he has!' 'I have seen four or five Presidents, but none of them looked as well as he.' And one went so far as to say that he thought Mr. Fillmore a better looking man than Washington—If any political candidate can be made out of good looks, the President will not have visited the Yankee Capital in vain in case he should be nominated for re-election."
